SUMMARY

I'm Anjar Oki Wibowo from Jakarta, Indonesia, a former Network Engineer who has transitioned into web development since 2020. With expertise in UI/UX design, frontend, and backend development, I combine technical precision with creative vision to craft digital solutions that are both functional and visually engaging. My background in engineering sharpens my systematic thinking, while my passion for art and sketching enriches my design approach, allowing me to build websites that are not only innovative but also full of character.

SKILL

- **UI/UX :** *Figma, Canva*
- **Frontend :** *HTML, CSS, JavaScript, React, Tailwind, Bootstrap*
- **Backend :** *Node.js, Express.js, MySQL, PostgreSQL, Firebase*
- **Tools :** *VS Code, Github, Trello*

PROFESIONAL

Freelance, Indonesia   Sep 2022 – Present

Fullstack Developer Web

- Developed and maintained end-to-end web applications using frontend technologies (HTML, CSS/Tailwind, JavaScript/React) and backend technologies (Node.js/Express.js, PostgreSQL).
- Designed, developed, and integrated APIs, improved application performance, and ensured system security and scalability.
- Created and implemented responsive, user-friendly interfaces aligned with user experience (UX) principles.

PT Studec International, Indonesia   Feb 2024 – Aug 2025

Web Administrator

- Administered the WordPress dashboard by regularly updating plugins, themes, and the WordPress core to ensure security and stability.
- Created, edited, and optimized website content (articles, images, videos) to align with user needs and enhance site performance.
- Monitored website uptime, performed routine backups, and resolved technical issues such as broken links to maintain a seamless user experience.

PT Rahma Puspa Mediatama, Indonesia   Apr 2017 – Jan 2024

Network Engineer

- Design and implement computer networks, including configuration and user/group access management.
- Manage and monitor network performance and security to ensure stability and protection.
- Provide troubleshooting and maintenance to guarantee all user devices remain connected and operational.

EDUCATION

Binar Academy, Indonesia   2021
Fullstack Devlopment Web

Krisnadwipayana University, Indonesia   2015
Network Engineer

ART EXHIBITION
